IF EDWARD ATKINSON and his fellow Filipinos are such royal good friends to AGUINALDO as they profess to be, they can be of some real service to him if they will go over and join his army. That's where they belong, and that's where they should be compelled to go.

THE survivors of the Civil War, both North and South, who are today held in supreme contempt, are the stay-at-home "soopahers" who hadn't courage enough to join either army, but who were constantly criticizing those who had. Mr. EDWARD ATKINSON and his Boston Filipinos might read a lesson from this.

AN EXTRA SESSION

President McKinley's Mind is Strongly Inclined Toward Calling One Shortly.

TWO REASONS GIVEN FOR THE MOVE

The Policy of the American Government With Respect to the Philippines Must Be Defined.

The Currency Question Is Disposed of Before the Party Enters the Campaign of 1900—Some Doubts Caused by the Cabinet.

WASHINGTON, May 11.—The revival of the talk of an extra session of congress has more behind it than idle gossip. The contingency of such a session has been discussed at a cabinet meeting, and a member of that body who was present at the time is authority for the statement that the president's mind is strongly inclined toward such a move.

Two reasons chiefly control the president in this matter—he wishes the policy of the government with respect to the Philippines defined and the currency question disposed of before the party enters the campaign of 1900. The president has declared his belief to his advisers that peace will be established in the Philippines within the next 30 days, and that the independence and possession of those islands will no longer be disputed. This, while according to him so soon, he does not care to formulate a policy with respect to their government the degree of home rule to be granted to them, etc., without the aid of congress in whose hands he placed the whole subject in his message to that body.

The president is unwilling to do anything that will lessen the present administration's popularity with his party in the coming campaign. He fears that anything looking like delay or indecision will have a bad effect. For this reason he wants the whole country to know before 1900 exactly what the policy of the government will be with respect to possessions in the far east.

Another powerful controlling motive that is actuating the president is his desire to have a policy of his own action taken with respect to the currency question. He is said to be not thoroughly satisfied with the results of the deliberations of the republican house caucus committee, which recently formulated a bill for introduction in the house when it convenes again. Although the members of that committee are unusually reticent it is understood that that committee has not in any way followed the lead of the president. Four strong points were brought out by the president, and the committee was thoroughly acquainted with his position. These recommendations were:

First—A provision that will make the so-called endless chain caused by the redemption of greenbacks with gold and consequent runs upon the treasury reserve impossible.

Second—That national banks be permitted to accumulate up to the par value of the bonds deposited to secure that circulation instead of only 90 per cent, as at present.

Third—A reduction of the tax on national bank circulation, the present tax being 1 per cent.

Fourth—That national banks with a capital of only \$25,000 be authorized to be established in small towns, the maximum limit being \$100,000.

Not being satisfied that the measure formulated by the house committee meets the situation, the president wishes the whole question taken up and disposed of as early as possible so that it may not be a factor in the coming campaign. This also appears to be the view of the leaders. Mr. Aldrich, chairman of the senate committee on finance, who has just returned from Europe, in an interview in New York in the Tribune recently said, he would call his committee together as soon as possible, and as he expressed it, "get right down to business." This committee was authorized to sit during the recess, but it was believed that not until the cool months of the fall season would it really do any work the subject. The declarations of Chairman Aldrich, however, clearly indicates a change of programme.

In his talks with senators and representatives, particularly those who intended spending the summer abroad, the president has intimated the possibility of a legislative emergency that would require their presence in Washington earlier than was thought likely when the 55th congress adjourned. The struggle over the speakership will consume time that was not anticipated. Although the president is extremely cautious how he discusses even the possibility of a special session of congress, his advisers, who are closest to him, regard a special session as almost an assured fact. The man on whose authority the above expressions are based is of the opinion that when the president returns from Hot Springs, which he has gone for, he will permit it to become semi-officially known that congress is to be convened some two or three months earlier than the date for the regular meeting.

DESIRE FOR PEACE

The Filipino Congress Held a Meeting at San Isidro But Had no Quorum.

SOME BUSINESS WAS TRANSACTED.

Those Who Attended Were Mostly Partisans of Aguinaldo, Who Want Hostilities to Cease.

Gen. MacArthur Will Probably Remain at San Fernando Until Fresh Troops Can Be Forwarded to Him From Manila.

MARINA, May 11.—Reports received from the insurgents here, which however have not been confirmed, say that a meeting of the Filipino congress has been held at San Isidro. There was no quorum present, but in spite of this fact some business was transacted. The reports add that, although those who attended were mostly partisans of Aguinaldo, a strong desire for peace was expressed.

Major Gen. MacArthur will probably remain at San Fernando until fresh troops can be forwarded to him from this city to replace some of the volunteers who have become exhausted from the long campaign. Filipino riflemen in the number of 8,000 are entrenched on three sides of Bacolor.

The Americans, however, are fully aware that the hold it on Monday's attack was a specimen of the enemy's fighting ability.

The United States government has been considering a provincial constitution for the island of Negros, which was framed by Col. Smith and leading natives. It is largely modeled after the constitution of California. While it has many good points, the commission will probably recommend a uniform government for all the provinces. This constitution, it is intended, will give the self-governing, cooperative with the new regime. Work on the constitution has been apportioned to the several members of the Philippine commission. The report of President Schurman will give special attention to national, provincial and municipal government; Col. Charles Denby will consider the organization of courts and Prof. D. C. Worcester will investigate tribal, political and commercial features of the islands. All the members of the commission are consulting with resident experts.

America's Method of Dealing With Reforms Compared With That of the Obstinate Spanish Regime.

Through the Separation of Church and State a Thousand Enormities Have Been Eased—Two Decrees Issued Obnoxious.

HAVANA, May 11.—La Patria, one of the best edited papers in Havana, said out Wednesday with an editorial strongly indorsing the American administration. Its utterances are regarded as representing the best thought of the thinking element of the community. The editorial says in part:

"If any shadow of doubt could remain as to the absolutely impious necessity of the expulsion of old Spanish regime in order that Cuba might have a chance to prove its political and social worth, one analyzes the series of phenomena developed before our sight day by day. We are eliminating traditional impediments and getting rid of the apparently impassable obstacles which four centuries of evil training in political administration had thrown in our path."

La Patria goes on to contrast the American method with that of the obstinate Spanish, dealing even the simplest reforms.

On this point it says:

"Formerly there was agitation among the people; oceans of ink and tons of paper were used; floods of oratory were poured out and then every thing ended at Madrid in the froth of Spanish promises. In the other hand in these days of fruitful thought silent work was done. The self-government, cooperation with the new regime. Work on the constitution has been apportioned to the several members of the Philippine commission. The report of President Schurman will give special attention to national, provincial and municipal government; Col. Charles Denby will consider the organization of courts and Prof. D. C. Worcester will investigate tribal, political and commercial features of the islands. All the members of the commission are consulting with resident experts."

THE ADMISSION OF WOMEN.

The Old Fight Over the Question Renewed in the Annual Convention of the Catholic Knights of America.

KANSAS CITY, Mo., May 11.—The Catholic Knights of America, who met in annual convention here Wednesday with nearly every state represented, resumed the old fight over the question of admitting women to membership almost as soon as the convention had been called to order. The law committee came before the convention with a minority report supporting the admission of women. After a debate that lasted until late Wednesday night, a vote was taken and the women were defeated. The final vote was 274 in the affirmative and 178 in the negative. As the proposed amendment required a two-thirds majority to carry the motion of the women were vanquished. An effort to reconsider the vote will be made Thursday.
